We collect Personal Information and **Deidentified Data**, as described below.

(a) **Information You Provide to Us.**

- We collect your first and last name, e-mail address, password, credit card and billing information when you create an account to log in to our network (“**Account**”). You may also supply additional contact information, such as your mailing address, and if you are an educator, your job title and school name.
- We collect information, including Personal Information, from any assessments we provide.
- If you use our Services on your mobile device, including through our Applications, we may collect your phone number and the unique device id number.

This information may be shared with third parties who help process and fulfill your purchases. When you submit credit card numbers, we encrypt that information using industry standard technology.
- When you post content (text, images, photographs, messages, comments or any other kind of content that is not your e-mail address) on our Services, the information contained in your posting will be stored in our servers (“**Profile**”). (b) Information Collected via Technology.

- Information Collected by Our Servers. To make our Site and Services more useful to you, our servers (which may be hosted by a third party service provider) collect information from you, including your browser type, operating system, Internet Protocol (“IP”) address (a number that is automatically assigned to your computer when you use the Internet, which may vary from session to session), domain name, and/or a date/time stamp for your visit.
- Log Files. As is true of most websites, we gather certain information automatically and store it in log files. This information includes IP addresses, browser type, Internet service provider (“ISP”), referring/exit pages, operating system, date/time stamp, and clickstream data. We use this information to analyze trends, administer the Site, track users’ movements around the Site, gather demographic information about our user base as a whole, and better tailor our Services to our users’ needs. For example, some of the information may be collected so that when you visit the Site or the Services again, it will recognize you and the information could then be used to serve advertisements and other information appropriate to your interests. Except as noted in this Privacy Policy, we do not link this automatically-collected data to Personal Information.
- Cookies. Like many online services, we use cookies to collect information. “**Cookies**” are small pieces of information that a website sends to your computer’s hard drive while you are viewing the website. We may use both session Cookies (which expire once you close your web browser) and persistent Cookies (which stay on your computer until you delete them) to provide you with a more personal and interactive experience on our Site. This type of information is collected to make the Site more useful to you and to tailor the experience with us to meet your special interests and needs.
- Pixel Tag In addition, we use “**Pixel Tags**” (also referred to as clear Gifs, Web beacons, or Web bugs). Pixel Tags are tiny graphic images with a unique identifier, similar in function to Cookies, that are used to track online movements of Web users. In contrast to Cookies, which are stored on a user’s computer hard drive, Pixel Tags are embedded invisibly in Web pages. Pixel Tags also allow us to send e-mail messages in a format users can read, and they tell us whether e-mails have been opened to ensure that we are sending only messages that are of interest to our users. We may use this information to reduce or eliminate messages sent to a user. We do not tie the information gathered by Pixel Tags to our users’ Personal Information.
- Do Not Track. We do not currently respond to “do not track” signals from web browsers.
- Mobile Services. We may also collect non-personal information from your mobile device if you have downloaded our mobile applications (“**Applications**”). This information is generally used to help us deliver the most relevant information to you. Examples of information that may be collected and used include your

geographic location, how you use the Applications, and information about the type of device you use. In addition, in the event our Applications crash on your mobile device, we will receive information about your mobile device model software version and device carrier, which allows us to identify and fix bugs and otherwise improve the performance of our Applications. This information is sent to us as aggregated information and is not traceable to any individual and cannot be used to identify an individual.

- **Google Analytics.** We use Google Analytics to help analyze how users use the Site. Google Analytics uses Cookies to collect information such as how often users visit the Site, what pages they visit, and what other sites they used prior to coming to the Site. We use the information we get from Google Analytics only to improve our Site and Services. Google Analytics collects only the IP address assigned to you on the date you visit the Site, rather than your name or other personally identifying information. We do not combine the information generated through the use of Google Analytics with your Personal Information. Although Google Analytics plants a persistent Cookie on your web browser to identify you as a unique user the next time you visit the Site, the Cookie cannot be used by anyone but Google. Google's ability to use and share information collected by Google Analytics about your visits to the Site is restricted by the Google Analytics Terms of Use and the Google Privacy Policy.
